Education

2025.08 – 2026.08	California College of the Arts (CCA)	MDes in Interaction Design
2021.09 – 2025.06	Beijing Jiaotong University	Digital Media Arts

★ **Profile:** Interaction designer with a multidisciplinary background in UX design, service design, and digital media art. Skilled at translating user contexts, emotional needs, and business goals into clear information architecture, interaction flows, interface prototypes, and experience strategies. Experienced in user interviews, field observation, competitive analysis, personas, user journeys, and service blueprints. Proficient in Figma, Midjourney, Adobe Photoshop, Illustrator, SketchUp, Blender, Framer, Claude, VS Code, GitHub, and AI-assisted design workflows. Strong visual communication, prototyping, cross-functional collaboration, and project execution skills.

Experience

- ★ **Ascend Culture Media Co., Ltd. | Design Assistant | Beijing, China | Jul 2024 – Aug 2024**
Supported brand events and digital media projects through research, competitive analysis, visual exploration, layout refinement, and final delivery. Contributed to ID. UNYX, K-GQ Technology Day, and internal event designs, translating brand goals into clear visual touchpoints and on-site experiences.
- ★ **Dreame San Francisco Product Launch Event | Event Volunteer | Palace of Fine Arts, San Francisco, CA | Apr 2026**
Supported guest reception, event operations, and venue coordination for an international consumer tech product launch. Gained hands-on experience in offline brand experience, audience engagement, and cross-functional event execution.

Projects

- ★ **NMDP Bone Marrow Donation System Experience Optimization | Systems & Service Design Project | CCA | Mar 2026 – Apr 2026**
Mapped the bone marrow donation journey across donors, patients, hospitals, labs, insurers, and nonprofits. Used stakeholder mapping, causal loop diagrams, and user journey analysis to identify barriers in awareness, response, and information delivery.
- ★ **Dancing With Nature: Kindred Care | Community-Based Elderly Care Service Design | CCA | Feb 2026 – May 2026**
Researched community-based elderly care through interviews, observation, and service system mapping. Proposed a care service concept combining green shared spaces, neighborhood support, and three-sided service interfaces to improve care continuity and older adults' dignity.
- ★ **Accessible E-commerce Platform for Handmade Crafts by Disabled Artists | Core Team Member | Jun 2024**
Designed an accessible e-commerce experience for disabled creators, contributing to information architecture, page layout, and low/high-fidelity prototypes. Used clear hierarchy, high-contrast visuals, and simplified flows to reduce cognitive load. **Won Second Prize, National NCDA Digital Media Design Competition.**
- ★ **Species Symphony | Interaction Design Lead | May 2024 – Sep 2024**
Led the interaction design of a nature-conservation game, creating core user flows, scene-based interactions, and feedback mechanisms. Translated environmental issues into an immersive experience with stronger usability and emotional engagement.

Campus & Community Engagement

- ★ **Alemany Farm Native Plant Volunteer Program | Community Volunteer | San Francisco, CA | Feb 2026:** Supported native plant care and environmental maintenance at a local community farm. Developed stronger sensitivity to sustainability, shared public spaces, and people–nature relationships through hands-on community work.
- ★ **Student Leadership & Admissions Outreach:** Served as Dance Club President and admissions outreach representative, leading performances, team rehearsals, and high school recruitment presentations for 200+ students. Built strong skills in public communication, team coordination, and cross-audience engagement.

Skills & Honors

- ★ **Design Tools:** Figma, Midjourney, Adobe Photoshop, Illustrator, SketchUp, Blender, Framer, Claude, VS Code, GitHub and some AI-assisted design tools
- ★ **Design Methods:** User-centered design, service design, systems thinking, information architecture, user journey mapping, stakeholder mapping, prototyping, interaction flow, emotional experience design
- ★ **Personal Strengths:** Empathetic research, visual storytelling, cross-cultural communication, fast learning, collaborative execution
- ★ **Honors:** NCDA Digital Media Design Competition Second Prize; CCA Graduate Merit Scholarship \$21,000; BJTU Academic Excellence Scholarship; Regional Charity Honorary Title
- ★ **Additional:** Certified Fitness Coach
